

LEGEND

A close-up photograph of the USB Blaster II circuit board. The board is blue with various electronic components, including integrated circuits, capacitors, and resistors. A prominent feature is a circular black sticker with the word "ROBOY" in white capital letters, positioned over the central part of the board. The board is populated with several gold-plated pins and connectors, including a USB Type-A port and a USB Type-B port. The text "USB BLASTER II" is visible on the top left of the board. Other labels include "3.3V", "5V", "GND", "HDMI TX", "DC5V", and "U16". The board is mounted on a white surface.
